

ST. EDWARD SCHOOL

175 PORTER STREET, NEW IBERIA, LA 70560 • 337-369-6764 • WWW.SESPANDAS.COM

Date: August, 2018
To: Parents, Guardians & Personnel
From: Mrs. Karen F. Bonin, Principal
Subject: Integrated Pest Management Plan

As required under ACT 237 of the Louisiana legislature (1995), governing the application and use of pesticides in and around schools, we are required to maintain a hypersensitive student registry. This registry is to include information on any student known to be hypersensitive to any pesticides.

If your child is known to be hypersensitive to any pesticide, we need you to provide us with the following information:

1. Students name and address
2. Parents or guardians name, address, phone number, cell number and signature.
3. A written medical verification by a licensed physician, which should also include the physician's name, address, phone number and signature.

Please return the above items to the school office so we may include this information in our files.

Thank you.

Mrs. Karen F. Bonin, Principal
Principal
